

Department of Botany & Plant Sciences

250 Seminar Series – Spring 2011

Wednesdays from 4:00 - 5:00 PM, GENO 1102A

Date	Speaker	Title
Mar 30	Richard Strimbeck Norwegian University of Science & Technology	Biochemistry and Mechanisms of Extreme Frost Tolerance in Boreal Conifer Needles
Apr 6	Rich Minnich University of California, Riverside	California's Fading Wildflowers
Apr 13	Louis Santiago University of California, Riverside	Nutrient Limitation of Productivity in Lowland Tropical Forest
Apr 20	Darrel Jenerette University of California, Riverside	Resolving hourly to decadal effects of rainfall on water limited landscape functioning
Apr 27	Zachary Nimchuk California Institute of Technology	Big decisions in little places: In vivo investigations of plant cell receptors
May 4	Shang Wu University of California, Riverside	TBA
May 11	Maureen Stanton University of California, Davis	TBA
May 18	Jochen Schenk CSU Fullerton	A Hard Day's Night: Nocturnal Removal of Air From Plant Hydraulic Systems
May 25	Patricia Colunga Centro de Investigación Científica de Yucatán	TBA
June 1	Rae Eden Yumul University of California, Riverside	TBA

Instructor: Lou Santiago (951) 827-4951
